PROFESSIONAL SUMMARY

Full-Stack Developer, Software QA Engineer, and Marketing professional with over 2 years of hands-on experience delivering production software and leading digital growth. Founder of **Tadio Africa** (live operational platform). Previously Hardware Technician at Reggies Computer Hub. Proven track record of shipping reliable software, leading marketing teams that drove measurable revenue growth, and combining technical depth with business ownership. University of Nairobi graduate (BSc Information Technology). Also a professional basketball player with Friends of Jordan.

PROFESSIONAL EXPERIENCE

Founder & Full-Stack Developer

Tadio Africa | Present

- Founded and built an operational company website and platform that remains live and actively maintained.
- Owned end-to-end development: architecture, frontend, backend, deployment, testing, and ongoing production support.
- Applied structured quality assurance practices (test case design, debugging, validation) to ensure reliability for real users.

Marketing Manager

Square Meter, Nairobi | April 2023 – Present

- Led a team of 5 marketing professionals; executed integrated campaigns that increased online sales by 30% within 12 months.
- Implemented customer segmentation strategies that improved email open rates by 25% and conversion rates by 20%.
- Combined data analysis and digital marketing (SEO, SEM, PPC) with technical understanding of web platforms.

Senior Marketing Specialist

Square Meter, Nairobi | June 2020 – March 2023

- Developed and executed social media strategies resulting in a 50% increase in follower engagement and 40% rise in website traffic.
- Conducted market research that informed a successful product launch capturing 15% market share.

Hardware Technician

Reggies Computer Hub | Previous Role

- Diagnosed and resolved hardware and software issues for clients, building strong systematic troubleshooting skills.
- Gained practical systems-level knowledge that informs full-stack development and quality assurance work.

SELECTED TECHNICAL PROJECTS

Tadio Africa Platform — Full-stack production application (still operational). End-to-end ownership from design to live maintenance.

Shanty's Collections — E-commerce platform for clothing and footwear. Attracted higher-end customers and delivered strong commercial returns.

Annie's Chicken Basket — Client website with online ordering, payment integration, and delivery support.

Successfully delivered 3+ production-level software projects with structured testing, debugging, and quality validation.
